Liquor Control Board of Ontario
Toronto, ON

To Human Resources at LCBO,

I am excited to be applying for the position of Customer Intelligence Analyst with LCBO. As someone with a talent and passion for research and data analysis, I thrive on writing reports and creating visualizations that bring data to life. I look forward to applying my analytical skills to interpret visualizations and statistical knowledge to assist in creating research studies to meet clients' needs.

I am currently at Mohawk College obtaining a post-graduate certification in Big Data. This semester we covered topics such as: quantitative analysis, marketing analytics and machine learning. I am a highly critical thinker with an undergraduate degree in Mathematics and Statistics and an excellent programmer in languages such as: SQL, Python, and R. My skillset combined with my strong interpersonal and great communication skills, both verbal and written, would be a great asset to your company.

Thank you for your time and consideration. I'm thrilled at the opportunity to use my skills to reveal customer facts and insights through data storytelling. I look forward to hearing from you soon.

Sincerely,

Sophia Valdizon
